

## Annual Reporting Requirements for Phase II (Small) MS4s TPDES General Permit Number TXR040000

Within 90 days of the end of each permit year (see table below), regulated Phase II Municipal Separate Storm Sewer Systems (MS4s) must submit annual reports to the Texas Commission of Environmental Quality (TCEQ) for that permit year. As required by the Texas Pollutant Discharge Elimination System (TPDES) General Permit Number TXR040000, an MS4 operator must annually review its Storm Water Management Program (SWMP) in conjunction with the preparation of the annual report. This document contains a suggested format for annual reporting.

Permit Year	Permit Year Dates	Due Date
1	8/13/07 – 8/12/08	11/12/2008
2	8/13/08 – 8/12/09	11/12/2009
3	8/13/09 – 8/12/10	11/12/2010
4	8/13/10 – 8/12/11	11/12/2011
5	8/13/11 – 8/12/12	11/12/2012

An annual report must be submitted even if the SWMP has not yet been approved by the TCEQ.

If MS4s share a common SWMP, all permittees must contribute to a system-wide report (if applicable). Each permittee must sign and certify the annual report in accordance with 30 TAC • 305.128 (relating to Signatories to Reports).

The annual report must include:

the status of compliance with permit conditions, an assessment of the appropriateness of best management practices (BMPs), a description of progress towards reducing the discharge of pollutants to the maximum extent practicable (MEP), the measurable goals for each of the minimum control measures (MCM), and an evaluation of the program's progress;

- (a) if applicable, the status of any control measures implemented by the permittee during the permit year;
- (b) a summary of any information (including monitoring data) collected and analyzed during the permit year that was used to evaluate reductions in the discharge of pollutants;

- (c) a summary of the storm water activities the MS4 operator plans to undertake during the next permit year;
- (d) proposed changes to the SWMP, including changes to any BMPs or any identified measurable goals that apply to the program elements;
- (e) the number of municipal construction activities authorized under this general permit and the total number of acres disturbed;
- (f) the number of non-municipal construction activities that occurred within the jurisdiction of the permittee (as noticed to the permittee by the construction operators); and
- (g) if applicable, notification that the MS4 operator is relying on another government entity to satisfy some of its permit obligations.

The annual report must be submitted to the following address:

Texas Commission on Environmental Quality  
Storm Water & Pretreatment Team; MC-148  
P.O. Box 13087  
Austin, Texas 78711-3087

A copy of the annual report must also be submitted to the TCEQ Regional Office. To locate the TCEQ Regional Office that serves the area of the regulated small MS4, visit <http://www.tceq.state.tx.us/about/directory/region/reglist.html>.

**Instructions for Phase II (Small) MS4 Annual Report  
TPDES General Permit Number TXR040000**

Use these instructions to assist in completing the MS4 Annual Report Form starting on page 11.

## **A. General Information**

1. Provide the:

- assigned permit number, beginning and end dates of the annual reporting period (permit year),
- name of the permittee (municipality or owner/operator of the MS4),
- name, telephone number, mailing address and e-mail address for the appropriate contact person.

2. If the MS4 is relying on another government entity to satisfy some of the permit obligations, provide the name of the other entity and an explanation of the elements of the SWMP that the entity is responsible for implementing. A description of the agreement or written documentation of the agreement must be included in the SWMP.

3. For a shared SWMP, list all associated permit numbers and permittee names. Add more spaces or pages if needed.

(a) Indicate if this a system-wide annual report including information for all permittees. If “Yes,” all represented permittees must sign the report in accordance with signatory requirements. The regulation governing who may sign an application form is 30 Texas Administrative Code (TAC) §305.128.

4. Indicate whether a copy of the annual report has been submitted to the TCEQ Regional Office. To locate the TCEQ Regional Office that serves the area of the regulated small MS4, visit <http://www.tceq.state.tx.us/about/directory/region/reglist.html>.

## **B. SWMP Modifications and Additional Information**

1. If changes have been made or are proposed to the SWMP, those modifications must be addressed in the annual report as required in Part II Section D 3 of the permit. If the TCEQ has notified you in writing that changes to the SWMP are necessary, those changes must be included in the report. Be sure to provide the following information in the explanation:

(a) Describe changes made to or proposed for the SWMP during the permit year, including changes to BMPs, measurable goals, dates, contacts, procedures or details during the permit year.

- (b) If changes include additions or substitutions of BMPs, include a written analysis explaining why the original BMP is ineffective or not feasible and why the replacement BMP is expected to achieve the goals of the original BMP.
- (c) A Notice of Change (NOC) is required if revisions are proposed to a SWMP that has already been approved by the TCEQ. If the initial SWMP has not been approved, submit a letter describing the change(s) so that information may be considered during the SWMP review process. If an NOC is required, it must be submitted to the address shown on the NOC form. Do not attach the form to this report.
2. If the MS4 has annexed land, attach a description (or map) indicating the newly annexed area located within a regulated area, the BMPs to be implemented, and any resulting updates to the SWMP.
3. If the receiving water body is newly listed as impaired or a Texas Maximum Daily Load (TMDL) has been established, refer to Part II Section C of general permit TXR040000 for additional information about limitations on permit coverage, compliance with water quality standards, and prohibited discharges (Edwards Aquifer Recharge Zone, specific watersheds, etc.).
- Impaired waters are those that do not meet applicable water quality standards and are listed on the Clean Water Act § 303(d) list. Constituents of concern are those for which the water body is listed as impaired. New sources or new discharges of the constituent(s) of concern to impaired waters are not authorized by the permit unless otherwise allowable under 30 TAC Chapter 305 and applicable state law. To determine if your receiving water has been listed as impaired, refer to the Texas 2008 List of Impaired Waters on the TCEQ website at <http://www.tceq.state.tx.us/compliance/monitoring/water/quality/data/08twqi/twqi08.html>.
  - A TMDL is the maximum amount of a water quality contaminant that can be discharged into a body of surface water on a daily basis without causing an exceedance of surface water quality standards. More information about TMDLs is located on the TCEQ website at <http://www.tceq.state.tx.us/implementation/water/tmdl/tmdlprogram.html>.
  - NOTE: Discharges of constituent(s) of concern to impaired water bodies for which there is a TMDL implementation plan are not eligible for coverage under this general permit unless they are consistent with the approved TMDL and the implementation plan. In order to be eligible for permit coverage, MS4 operators must incorporate into their SWMP the limitations, conditions and requirements applicable to their discharges, including monitoring frequency and reporting as required by the TCEQ rules. For discharges not eligible for coverage under this general permit, the discharger must apply for and receive an individual TPDES permit.
4. Indicate whether the MS4 has conducted analytical monitoring of storm water quality. Provide an explanation along with any monitoring data used to evaluate the success of the SWMP at reducing pollutants to the maximum extent practicable (MEP). Include a discussion of results with the explanation or summary.

## C. Narrative Provisions

1. Provide a brief description on the status of complying with permit conditions, including compliance with the SWMP that TCEQ approved, compliance with record keeping and reporting requirements, and compliance with permit eligibility requirements.
2. Provide a general assessment of the appropriateness of the selected BMPs, including whether any of the selected BMPs are not appropriate.
3. Describe progress towards reducing the discharge of pollutants. Summarize any information used to evaluate reductions in the discharge of pollutants. This information can be included in a tabular format as provided in the form, or described in a narrative format following the table.
4. Provide a general evaluation of the program's progress, including any obstacles or challenges in meeting the SWMP schedule, etc.
5. Provide the number of construction projects in the jurisdiction of the MS4 where the permittee was not the construction site operator (as provided in submittals to the MS4 operator via notices of intent or site notices).
6. Does the permittee utilize the seventh MCM related to construction? To answer "Yes," this must have been requested on the Notice of Intent (NOI) or on an NOC and approved by the TCEQ.
  - (a) If "Yes," then provide information about the number of municipal construction activities authorized under this general permit and the total number of acres disturbed for municipal construction projects.
7. Requirements for Specific Minimum Control Measures (MCMs):
  - (a) For MCM 1 - Public Education and Outreach, provide documentation of activities conducted and materials used to fulfill the requirements of this MCM.
  - (b) Also for MCM 1, provide documentation of the amount of resources used to address each group (e.g., visitors, businesses, etc.).
  - (c) For MCM 3 – Illicit Discharge Detection and Elimination (IDDE), include a synopsis of the changes to the SWMP that are necessary to meet any local controls, conditions and/or programs being established for non-storm water discharges. Indicate if not applicable.
8. Other than the SWMP modifications indicated in Section B, describe any proposed changes to the SWMP in the coming reporting year.
9. Describe any activities that are planned for the next permit year that have not already been described above.

## D. Storm Water Management Program Status

Each MS4 is required to evaluate compliance with permit requirements and assess the appropriateness of the BMPs in reducing the discharge of pollutants to the maximum extent

practicable. The purpose of the annual report is to describe the status of compliance with permit conditions – specifically the implementation of selected BMPs and the progress towards achieving the measurable goals for each BMP. Using Table 1 provided with these instructions, summarize the status of all BMPs specified in the SWMP, as follows:

**Minimum Control Measures:** Specify the MCM addressed by each BMP. The six MCMs are listed in Part III A of the permit. Some BMPs may address more than one MCM. Include at least one BMP for each MCM.

**Best Management Practices:** BMPs are the specific long-term activities and practices that will be implemented to prevent or reduce storm water pollution. Examples include public service announcements, outfall inspections, and construction site plan reviews. List all of the BMPs specified in the SWMP, including any new BMPs. For a shared SWMP, include the name of the responsible MS4 operator(s) in this column. See Example 1: BMP Status

**Measurable Goals:** Measurable goals are the ongoing tasks and interim steps that demonstrate progress toward implementing a specific BMP. List all measurable goals from the SWMP, and include any new measurable goals. If you have developed a storm water ordinance during the permit year, include a description or citation of the ordinance, or simply attach a copy of the ordinance. See Example 2: Measurable Goals Status

**New or Revised:** Indicate whether the BMP or measurable goal is new or revised. Examples include replacement of a BMP with another, addition of a new measurable goal, revision of a start date, etc. Briefly explain the change.

**Start Date:** Specify the scheduled start date (month and year) for each BMP as described in the schedule provided in the SWMP.

**Implementation Status:** Describe the implementation status (such as completed, in progress, or not started) of each BMP as of the end of the permit year. If an activity has been completed, indicate the completion date. If an activity has not yet been started or is in progress, provide the expected completion date. Briefly describe the frequency with which ongoing BMPs are conducted. The following tables are examples of the type of information to be provided in the annual report.

See: Example 1. BMP Status

Example 2. Measurable Goals Status

**Example 1 – BMP Status**

<b>MCM(s)</b>	<b>BMP</b>	<b>Year 1 Milestone(s)</b>	<b>New or Revised (submit NOC as needed)</b>	<b>Start Date</b>	<b>Status / Completion Date  (completed, in progress, not started)</b>
3: Illicit Discharge Detection and Elimination	Map all outfalls and all water bodies receiving discharges from MS4.	Completed storm sewer system map includes all outfalls and names and locations of all water bodies		January 2008	Completed June 2008.
3: Illicit Discharge Detection and Elimination	Perform field screening of outfalls.	Develop protocol to screen outfalls, and research sampling equipment.		August 2008	Did not complete. City was not required to implement SWMP because SWMP was not approved by TCEQ. City revised original schedule during initial SWMP review to require this milestone be met in Years 1 or 2.
4/5: Construction Site Control and Post-Construction Site Control	Implement storm water ordinance for construction and post-construction runoff control	Researched other municipalities' ordinances	X	July 2007	Completed - Revised start date from March 2007 to July 2007.
4/5: Construction Site Control and Post-Construction Site Control	Implement storm water ordinance for construction and post-construction runoff control	Integrated language from model ordinance		September 2007	Completed December 2007.
4/5: Construction Site Control and	Implement storm water ordinance for	Storm water ordinance has been drafted		March 2008	In progress - Draft ordinance presented to City

<b>MCM(s)</b>	<b>BMP</b>	<b>Year 1 Milestone(s)</b>	<b>New or Revised (submit NOC as needed)</b>	<b>Start Date</b>	<b>Status / Completion Date  (completed, in progress, not started)</b>
Post-Construction Site Control	construction and post-construction runoff control				Council June 2008 - Approval pending, expected completion date July 2009.
6: Pollution Prevention & Good Housekeeping for Municipal Operations	Train all public works and streets staff	Approx. 20 staff trained. Staff educated on good housekeeping/ pollution prevention and upcoming storm water ordinance		April 2007	In progress - annual training every April

### Example 2– Measurable Goals Status

MCM	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
1	Provide utility bill inserts to each utility customer at least once each year.	Met goal	None
2	Conduct one public meeting or city-wide cleanup day each year.	Exceeded goal: conducted one public meeting and two cleanup days.	None
3	Map 25% of outfalls and 50% of receiving waters during Year 1 (same as milestone)	Met goal	None
4	Perform site inspections of 25% of all active construction sites.	Did not meet goal. Number of construction sites in city was far above normal for the year.	Revise goal to perform site inspections of 25% of all active construction sites, or a minimum of 50 sites per year. Submitted NOC along with the annual report to reflect this change.
4	Respond to 100% of construction complaints received.	Met goal	None
5	Review all site plans submitted for new development projects.	Met goal	None
6	Sweep 50% of roads each year.	Exceeded goal – swept all city streets in Year 1.	None

MCM	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
	Send two employees each year to a storm water training workshop.	Met goal	None

## E. Certification

The annual report must be signed by a principal executive officer or ranking elected official, or by a duly authorized representative as referenced in 30 TAC §305.128. The Delegation of Signatories to Reports (TCEQ form 20403) can be located by visiting <http://www.tceq.state.tx.us> and selecting the Forms option.

For shared SWMPs, it would be acceptable to submit separate signature pages for each operator participating in the shared SWMP and system-wide annual report.

## F. Cover Letter

Please submit the annual report with a cover letter to insure that the report reaches the Storm Water & Pretreatment Team. Send the report and cover letter to the TCEQ at the following address. See cover letter template on page 19.

Texas Commission on Environmental Quality  
Storm Water & Pretreatment Team Leader (MC-148)  
P.O. Box 13087  
Austin, Texas 78711-3087

## Phase II (Small) MS4 Annual Report Form

TPDES General Permit Number TXR040000

### A. General Information

1. Permit Number TXR040078 Annual Report Year: 2012-2013 Extended

Name of MS4 / Permittee: City of Pflugerville

Contact Name: Patrick Wells Telephone Number: 512-990-6348

Mailing Address: 201-B East Pecan St. Pflugerville, Texas 78691-0589

E-mail Address: patrickw@pflugervilletx.gov

2. Is the named permittee relying on another entity/ies to satisfy some of its permit obligations?  Yes  No

If "Yes," provide the name(s) of other entity/ies and an explanation of their responsibilities (add more spaces or pages if needed):

Name and Explanation: *A cooperative effort amongst both Pflugerville & Travis County establishes jurisdictional authority within the City of Pflugerville Extra-Territorial Jurisdiction (ETJ). The City relies on Travis County to enforce TPDES rules and regulations as applicable on projects subject to the stormwater regulations. An interlocal agreement was adopted detailing the specifics of the obligations of each entity. The City continues to honor the agreement terms on enforcement cases involving specific jurisdictions.*

3. Is the named permittee sharing a SWMP with other entities? \_\_\_\_\_ Yes X No

a. If the answer to Number 3 is "Yes," list all associated permit numbers and permittee names (add additional spaces or pages if needed):

Permit Number: \_\_\_\_\_ Permittee: \_\_\_\_\_

b. If the answer to Number 3 is "Yes," is this a system-wide annual report including information for all permittees?

\_\_\_\_\_ Yes \_\_\_\_\_ No

Explanation, if any \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

4. Has a copy of this annual report been submitted to the TCEQ Regional Office? X Yes \_\_\_\_\_ No

**B. SWMP Modifications and Additional Information.**

Include a brief explanation if you check "Yes" to any of the following statements.

1. a. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ's review. \_\_\_\_\_ Yes X No

\_\_\_\_\_  
\_\_\_\_\_

b. If the answer to Number 1.a. is "Yes," has the TCEQ already approved the original SWMP?  Yes  No

---

---

c. If the answer to Number 1.a. is "Yes," indicate whether an NOC (or letter) has been submitted to document the changes to the approved SWMP as required by the general permit. (Note that if an NOC is required, it must be submitted to the address shown on the NOC. Do not attach the original NOC form to this report.)  Yes  No

---

---

2. The MS4 has annexed lands since obtaining permit coverage. If "Yes," please explain.  Yes  No

See attachment 7

---

---

3. A receiving water body is newly listed as impaired or a TMDL has been established. If yes, please explain.

Yes  No

---

---

4. The MS4 has conducted analytical monitoring of storm water quality.  Yes  No

Explain below or attach a summary to submit along with any monitoring data used to evaluate the success of the SWMP at reducing pollutants to the maximum extent practicable. Be sure to include a discussion of results.

*A water quality sample was taken from a recreational area in Gilleland Creek in June 2013. (attachment 6B) The sample was taken after a rain event and lab results indicated E- Coli levels were elevated. A second test was conducted and levels were below the limit for E-Coli set forth by the TCEQ, and deemed acceptable. All other monitoring data has been conducted by the LCRA within the Gilleland Creek Watershed. The City has continued to implement the Illicit Discharge Detection Elimination Program (IDDEP) in accordance with MCM 3. The program works in conjunction with Code Enforcement to detect the presence of illicit connections and improper discharges to the MS4, and then to eliminate any discovered or traced source.*

*The City's Engineering Department revised its Engineering Design Guidelines (EDG) conforming a comprehensive set of engineering standards and design criteria to ensure quality and uniformity of the public improvements constructed. All active construction within the city is required to comply with these standards.*

*Spreadsheets continue to be maintained for tracking the SWMP. Categories include tracking public education & participation activities, monitoring inspection and enforcement, and employee training sessions. The SWMP spreadsheets are attached as documentation in this annual report.*

*The MS4 program continues to develop, implement, and enforce to reduce pollutants in stormwater runoff to a regulated small MS4 from new development, redevelopment, and construction site activities.*

## C. Narrative Provisions

1. Provide information on the status of complying with permit conditions:

	Yes	No	Explain
Permittee is currently in compliance with the SWMP as submitted to and approved by the TCEQ.	X		<i>The City has continually worked to complete all BMPs approved in the SWMP.</i>
Permittee is currently in compliance with recordkeeping and reporting requirements.	X		<i>The City has kept all documentation needed for proof of BMP completion.</i>
Permittee meets the eligibility requirements of the permit (e.g., TMDL requirements, Edwards Aquifer limitations, compliance history, etc.)	X		<i>All necessary forms and documentation; including NOIs, NOTs, NOCs, annual reports, site notices, SWP3s, etc. are completed and submitted as required.</i>

2. Provide a general assessment of the appropriateness of the selected BMPs:

Has the permittee determined that any of the selected BMPs are not appropriate for reducing the discharge of pollutants in storm water? \_\_\_\_\_ Yes \_\_\_X\_\_\_ No

Provide explanation: *Until the new permit becomes effective, the City will continue to operate under the existing 2007 permit, & the BMPs are still proving to be appropriate to reduce pollutants and protect the City's stormwater quality to the maximum extent practicable. The BMPs having been implemented represent the community's priorities and also enable the City to comply with the TCEQ General Permit as an operator of a small MS4. Storm Water staff continue to address many of the concerns discovered while maintaining program priorities. These include providing information resources to the public and enforcement efforts involving construction activities. The Stormwater Program webpage provides education resources on storm water awareness ([www.pflugervilletx.gov/stormwater](http://www.pflugervilletx.gov/stormwater)), and email address ([stormwater@pflugervilletx.gov](mailto:stormwater@pflugervilletx.gov)). These measures assist the City in taking a proactive approach to stormwater management for the community's health. The MS4 program's progression has*

increased by reducing the discharges of pollutants, protecting water quality, and maintaining community health. Events such as Clean Up Day and Earth/Arbor Day/Naturefest help create awareness around the community.

Reviews of permits, plans, inspections, and enforcement capability continue to be effective in ensuring compliance. These measures include plan reviews for permanent stormwater facilities/BMPs, recordkeeping, and enforcement measures consistent with the stormwater ordinance. The City requires a review of a permittee’s SWP3 prior to beginning any building activity, including copies of the NOI or Construction Site Notice. A “Corrective Order” form was developed to dispense in cases of noncompliance during active construction. (Attachment 4C)

The BMPs that have been implemented continue to make significant improvements in the City’s stormwater program, and are achievable given the appropriate resources. The City of Pflugerville is pleased to report continued progress for year the extended period of the MS4 permit.

- Describe progress towards reducing the discharge of pollutants to the maximum extent practicable (MEP). Summarize any information used (such as monitoring data) to evaluate reductions in the discharge of pollutants. Use a narrative description or table as appropriate:

MCM	BMP	Parameter	Quantity	Units	Does BMP Demonstrate a Direct Reduction in Pollutants? (Yes / No / Explain)

Or, provide explanation below:

*The City recently conducted a water quality laboratory analysis. (See section B-4 above for summary) LCRA continues to monitor two sites in Gilleland Creek, one of which is in assessment unit 4 containing Pflugerville. TCEQ assesses Gilleland Creek every 2 years as part of updating the Texas Water Quality Inventory and 303(d) List. Public Education and Involvement continue to improve as evidenced by enhanced efforts by Code Enforcement and increased participation at the City's recycling center.*

*Monitoring and sampling is also still performed voluntarily by the Texas Stream Team at different locations. All collected data helps reveal areas needing further monitoring, remediation, and/or enforcement. Free compost is still provided to residents, which provides practical alternatives to over-applying fertilizer, thereby reducing the amount of excessive nutrients to local waterways.*

*The effect of the actions referenced remains directly linked to the prevention of pollutants into the MS4. Other efforts include the Sanitary Sewer Video Testing (BMP 305) and Site Inspection and Enforcement (BMP 403) programs. Pflugerville's Sanitary Sewer inspection helps identify potential cross-connections with the City's storm sewer system to keep sanitary waste from being leaked into the MS4. The amount of repairs and replacements made to the sanitary sewer system based on information obtained through the Sanitary Sewer program is included in Attachment 3C.*

*These measures continue to assist in pollution prevention in the extended permit year. The information provided demonstrates that reduction in pollutant discharge to the MS4 has been performed to the MEP and is projected that subsequent permit years will show further progress.*

4. Provide a general evaluation of the program's progress, including any obstacles or challenges encountered in implementing BMPs, meeting the program's schedule, etc.:

*The City's SWMP continues to make significant progress in the implementation of its SWMP. The Stormwater Ordinance remains the building block to enforcing any applicable violations. The provisions of the ordinance allow City inspectors the legal authority to inspect private stormwater facilities that discharge into the City's MS4. The development of a "Corrective Order" (Attachment 4C) has been widely successful in streamlining enforcement procedures. This provides written notice & timeline to remedy any violations the City requests to be rectified.*

*Through enhanced efforts and proven methods, the City's MS4 program has become a key component in the building process & pollution prevention.*

5. Provide the number of construction activities (other than those where the permittee was the operator) that occurred within the regulated area as indicated by notices of intent or site notices:

*The City received 15 notifications of construction activities indicated by NOI's & CSN's.*

6. Does the permittee utilize the optional seventh MCM related to construction? \_\_\_\_\_ Yes  No

If "Yes," then provide the following information for this permit year:

a. The number of municipal construction activities authorized under this general permit: \_\_\_\_\_

b. The total number of acres disturbed for municipal construction projects: \_\_\_\_\_

*Though the seventh MCM is optional, implementation must be requested on the NOI or on a NOC and approved by the TCEQ.*

7. Requirements for Specific Minimum Controls Measures (MCMs):

a. For MCM 1 - Public Education and Outreach, provide documentation of activities conducted and materials used to fulfill the requirements of this MCM.

*For MCM 1 - Public Education and Outreach, documentation of activities conducted and materials used are provided on the individual BMP Status pages. Documentation is included in the enclosed attachment with this report.*

b. Also for MCM 1, provide documentation of the amount of resources used to address each group (e.g., visitors, businesses, etc.).

*See **attachment 1A** for an inventory of Public Outreach materials.*

c. For MCM 3 – Illicit Discharge Detection and Elimination (IDDE), indicate whether you have developed a list of allowable non-storm water discharges, other than those already listed in the general permit. If you have developed a list and have made any changes to the local controls, conditions and/or programs being established for discharges, include this information below. If you do not have any changes for this permit year, indicate that this item is not applicable.

*Not applicable – No changes for this permit year*

8. Describe any proposed changes to the SWMP in the coming reporting year.

*The changes anticipated for the SWMP are dependent upon the requirements for the next permit term and will implement according to the specifications of the new MS4 permit term.*

9. Describe any activities planned for the next permit year, not already described.

*Activities planned for the next permit year are dependent upon the new 5 year permit.*

## D. Storm Water Management Program Status

Provide the status of every BMP and measurable goal listed in the SWMP, as described in the instructions. Each MCM, but not necessarily each BMP, must include the measurable goals described in the SWMP. For a shared SWMP, include the name of the responsible MS4 operator(s) in the “BMP” column. *(Though an MS4 is not required to implement BMPs until the initial SWMP is approved by the TCEQ, the MS4’s initial annual report should include a description of what has been done to date, even if the SWMP has not yet been approved. The MS4 will receive credit for all BMPs implemented prior to and during the first permit year if they are described in the initial annual report.)*

**Table 1 – BMP Status**

<b>MCM(s)</b>	<b>BMP</b>	<b>Milestones of Permit Year</b>	<b>New or Revised</b>	<b>Start Date</b>	<b>Status / Completion Date (completed, in progress, not started)</b>
Related MCMs All	BMP 001 Storm Water Management Structure	Establish a staff committee to address stormwater management structure issues		Nov. 2010	<i>Completed/Nov. 2010</i>
Related MCMs All	BMP 001 Storm Water Management Structure	Review existing city stormwater structure and assign/coordinate implementation of BMPs within City Departments		Nov. 2010	<i>Completed/Nov. 2010</i>
Related MCMs All	BMP 001 Storm Water Management Structure	Establish draft stormwater management structure		Dec. 2010	<i>Completed/Dec. 2010</i>

<b>MCM(s)</b>	<b>BMP</b>	<b>Milestones of Permit Year</b>	<b>New or Revised</b>	<b>Start Date</b>	<b>Status / Completion Date (completed, in progress, not started)</b>
Related MCMs All	BMP 001 Storm Water Management Structure	Finalize the stormwater management structure for the City and report plan to Council		Jan. 2011	<i>Completed/Jan. 2011</i>
Related MCMs	BMP 001 Storm Water Management	Council adoption of structure		Jan. 2011	<i>Completed/Jan. 2011</i>
Related MCMs 3,4,5,	BMP 002 Storm Water Pollution Control Ordinance	Assign the task of preparing the stormwater pollution control ordinance to an appropriate individual		Jan. 2011	<i>Completed/Jan. 2011</i>
Related MCMs 3,4,5,	BMP 002 Storm Water Pollution Control Ordinance	Review existing codes of the City and ordinances adopted by other entities regarding stormwater		April 2011	<i>Completed/May 2011</i>
Related MCMs 3,4,5,	BMP 002 Storm Water Pollution Control Ordinance	Planning and Zoning/Council Work session to review ordinance issues		Sept. 2011	<i>Completed/December 2011</i>
Related MCMs 3,4,5,	BMP 002 Storm Water Pollution Control Ordinance	Develop draft stormwater pollution control ordinance		Aug. 2011	<i>Completed/December 2011</i>
Related MCMs 3,4,5,	BMP 002 Storm Water Pollution Control Ordinance	Planning and Zoning Public Hearing and Adoption of ordinance		Oct. 2011	<i>Completed/December 2011</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 3,4,5,	BMP 002 Storm Water Pollution Control Ordinance	City Council Public Hearing and first adoption of ordinance		Oct. 2011	<i>Completed/December 2011</i>
Related MCMs 3,4,5	BMP 002 Storm Water Pollution Control Ordinance	Final Adoption of stormwater pollution control ordinance by the City Council		Dec. 2011	<i>Completed/Dec. 2011 (Became effective Feb. 2012)</i>
Related MCMs 7	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction	Assign the task of evaluating the seventh MCM to appropriate individuals or committee for study		Apr. 2011	<i>Completed/Feb. 2012</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 7	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction Activities	Review existing regulations for municipal operations		Jun. 2011	<i>Completed/Feb. 2012</i>
Related MCMs 7	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction Activities	Evaluate whether to develop seventh MCM for City Operation		Aug. 2011	<i>Completed/Feb. 2012</i>
Related MCMs N/A	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction	Decision: Adopt the seventh MCM or drop further consideration		Sept. 2011	<i>Completed/Feb. 2012</i> <i>MCM 7 decision withdrawn</i>
Related MCMs N/A	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction Activities	If the Decision is to adopt the seventh MCM, the following additional steps will be taken:		TBD	<i>NA</i>
Related MCMs N/A	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction Activities	Determine how implementation of the seventh MCM fits into the stormwater management structure (BMP 001)		Oct. 2011	<i>NA</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs N/A	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction Activities	Assign task of establishing appropriate BMPs for the seventh MCM		Nov. 2011	NA
Related MCMs N/A	BMP 003 Evaluation of a Minimum Control Measure for Municipal Construction Activities	Develop and adopt appropriate BMPs for the seventh MCM		Dec. 2011	NA
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Establish regular communications with Travis County stormwater managers to discuss necessary interlocal agreements		Dec. 2010	<i>Completed/March 2012</i> <i>The City continues regular contact and meetings with the Travis County Stormwater Team.</i>
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Develop a draft interlocal agreement with Travis County		Aug. 2011	<i>Completed/August 2012</i>
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Present draft interlocal agreement to Council		Dec. 2011	<i>Completed/August 2012</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Adopt an interlocal agreement on stormwater management with Travis County.		Aug. 2012	<i>Completed/August 2012</i>
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Evaluate the potential for interlocal agreements with other entities and agencies		Aug. 2011	<i>Completed/Feb. 2012</i> <i>Travis County remains the only entity in the City's ETJ regarding the City's SWMP.</i>
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	If other interlocal agreements are determined to be needed, the following additional steps will be		N/A	<i>N/A as the City will not develop any other interlocal agreements</i>
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Establish appropriate communications with other entities to discuss interlocal agreement development		N/A	N/A
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Develop draft interlocal agreements		N/A	N/A
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Present draft interlocal agreements with other entities to Council		N/A	N/A
Related MCMs 1,2,3,4,5	BMP 004 Development of Interlocal Agreements	Adopt additional interlocal agreements		N/A	N/A

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 1,2	BMP 101 Development of Comprehensive Public Education Program	Review existing public education and outreach programs		Mar. 2011	<i>Completed/March 2011</i>
Related MCMs 1,2	BMP 101 Development of Comprehensive Public Education Program	Prepare information on City's MS4 permit and stormwater management activities		Apr. 2011	<i>Completed/April 2011</i>
Related MCMs 1,2	BMP 101 Development of Comprehensive Public Education Program	Determine schedule for each outreach program		May 2011	<i>Completed/May 2011</i>
Related MCMs 1,2	BMP 101 Development of Comprehensive Public Education Program	Distribute stormwater management information as determined		Jun. 2011	<i>Completed/On-going</i>  <i>The City continues to maintain records of all public education and outreach activities conducted. Multiple methods of distribution include the city website, local TV access channel, local newspaper, employee newsletter, brochures, &amp; council presentation. Copies of all material used during public education and outreach activities continue to be maintained, as well as photos, descriptions of feedback, and other information. (Attachment 1A)</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 1,2	BMP 101 Development of Comprehensive Public Education Program	Record activities and document progress		Jun. 2011	<i>Completed/August 2013</i> <i>A list of events, activities, and resources was compiled detailing the activities conducted by the city related to public education (Attachment 1A) Documentation will continue.</i>
Related MCMs 1,2	BMP 102 Drop-by-Drop Water Conservation Program	Continue to research water conservation techniques		On-going	<i>On-going during Permit Year 5</i>
Related MCMs 1,2	BMP 102 Drop-by-Drop Water Conservation Program	Prepare Annual Report		Aug. 2011 On-going	<i>Completed/August 2013</i>
Related MCMs 1,2	BMP 102 Drop-by-Drop Water Conservation Program	Continue to promote water conservation programs to educate public on stormwater issues and to		On-going	<i>On-going during extended Permit Year 5</i> <i>See attachment 1B</i>
Related MCMs 1,2	BMP 201 Participate in the Gilleland Creek Bacteria TMDL Implementation Plan Stakeholders Group	Assign appropriate City staff to participate in the various sub-committees of the Implementation Plan task force		Completed	<i>Completed/February 2012</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 1,2	BMP 201 Participate in the Gilleland Creek Bacteria TMDL Implementation Plan Stakeholders Group	Participate in sub-committee meetings		On-going	<p><i>In progress/determined by TCEQ and Stakeholders Group members</i></p> <p><i>The City hosted a TMDL meeting at the Justice Center for all regional participants and has been active in the I-Plan. The meeting was held on Wednesday March 06 2013. It was led by Lauren Young (TCEQ Water Quality Planning Division) &amp; attendees included stakeholders representing the participating entities including local governments, such as the Cities of Pflugerville and Austin, and larger statewide organizations that are involved in activities in the watershed.</i></p> <p><i>Attachment 2A</i></p>
Related MCMs 1,2	BMP 201 Participate in the Gilleland Creek Bacteria TMDL Implementation Plan Stakeholders Group	Draft Implementation Plan		Aug. 2010	Completed/Aug. 2010
Related MCMs 1,2	BMP 201 Participate in the Gilleland Creek Bacteria TMDL Implementation Plan Stakeholders Group	Adoption of a final Implementation Plan		Aug. 2011	Completed and approved Feb. 2011

<b>MCM(s)</b>	<b>BMP</b>	<b>Milestones of Permit Year</b>	<b>New or Revised</b>	<b>Start Date</b>	<b>Status / Completion Date (completed, in progress, not started)</b>
Related MCMs 1,2	BMP 202 General Permit Public Notice	Publish public notice regarding the TCEQ's preliminary determination on the NOI and SWMP for the MS4 permit, as required by the TCEQ		Apr. 2009	<i>Completed/ Aug. 2009</i>
Related MCMs 1,2	BMP 203 General Permit Public Meeting	If the TCEQ determines that a public meeting is necessary, the following steps will be undertaken by the City:		TBD by TCEQ	<i>Completed to date and future schedules as determined by TCEQ</i>
Related MCMs 1,2	BMP 203 General Permit Public Meeting	Coordinate with TCEQ to establish a meeting date and time		TBD by TCEQ	<i>Completed to date and future schedules as determined by TCEQ</i>
Related MCMs 1,2	BMP 203 General Permit Public Meeting	Publish notice of the public meeting, in accordance with TCEQ requirements		TBD by TCEQ	<i>Completed to date and future schedules as determined by TCEQ</i>
Related MCMs 1,2	BMP 203 General Permit Public Meeting	Submit affidavit of the notice to TCEQ		TBD by TCEQ	<i>Completed to date and future schedules as determined by TCEQ</i>
Related MCMs 1,2	BMP 203 General Permit Public Meeting	Prepare materials for the public meeting, including maps, copies of handouts, sign-in sheet, etc.		TBD by TCEQ	<i>Completed to date and future schedules as determined by TCEQ</i>
Related MCMs 1,2	BMP 203 General Permit Public Meeting	In coordination with TCEQ, conduct the public meeting		TBD by TCEQ	<i>Completed to date and future schedules as determined by TCEQ</i>

<b>MCM(s)</b>	<b>BMP</b>	<b>Milestones of Permit Year</b>	<b>New or Revised</b>	<b>Start Date</b>	<b>Status / Completion Date (completed, in progress, not started)</b>
Related MCMs 1,2	BMP 204 Public Participation Events	Evaluate potential for a comprehensive program to sponsor public events		Feb. 2011	<i>Completed /Feb. 2011</i>
Related MCMs 1,2	BMP 204 Public Participation Events	Make decision on whether to develop a program		Mar. 2011	<i>Completed/ Mar. 2011</i>
Related MCMs 1,2	BMP 204 Public Participation Events	In conjunction with the comprehensive public education program (BMP 101), develop a stormwater public events program		Apr. 2011	<i>Complete/June 2012</i> <i>The public events program continues to provide the public with direct contact to city staff, a stormwater webpage, public hearings discussing policy, and educational handouts at city sponsored public events.</i>
Related MCMs 1,2	BMP 204 Public Participation Events	Implement stormwater public events program		On-going	<i>On-going</i> <i>Opportunities for involvement and public comment are created through public meetings and through the general availability of the SWMP. Comments made during presentations or received through other means are archived. Comments are then collected and will be considered and incorporated in the MS4 Program as appropriate.</i>
Related MCMs 1,2	BMP 204 Public Participation Events	Document progress		On-going	<i>Completed /July 2012</i> <i>See attachment 2B</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 3	BMP 301 Illicit Discharge Detection and Elimination Program	In conjunction with development of a stormwater management structure (BMP001 & BMP 002), staff the Illicit Discharge Detection and Elimination program		Oct. 2011	<i>Completed/Feb. 2012</i>
Related MCMs 3	BMP 302 Allowable Non-Stormwater Discharges	Review list of permit allowable non-stormwater discharges		Apr. 2011	<i>Completed/Apr. 2011</i>
Related MCMs 3	BMP 302 Allowable Non-Stormwater Discharges	Review documented illegal discharges within the City		Jun. 2011	<i>Completed/June 2011</i>
Related MCMs 3	BMP 302 Allowable Non-Stormwater Discharges	Evaluate need for adding new illicit discharges to allowable non- stormwater discharge list or removing		Jul. 2011	<i>Completed/Jul. 2011 and will continue annually</i>
Related MCMs 3	BMP 303 Storm Sewer Map	Prepare base map with existing surface waters shown, including tributaries that are considered waters of the U.S. or surface waters in the State		Aug. 2010	<i>Completed/August 2010</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 3	BMP 303 Storm Sewer Map	Identify and map major stormwater outfalls and known existing structural BMPs within the City's stormwater system		May 2011	<p style="text-align: center;"><i>Completed/July 2012</i></p> <p><i>Many GIS layers remain updated throughout the year as well as a current drainage map system.</i></p>
Related MCMs 3	BMP 303 Storm Sewer Map	Identify and map minor outfalls within the City's stormwater system		Dec. 2011	<p style="text-align: center;"><i>Completed/July 2012</i></p> <p><i>The outfall map with receiving US Waters is continuously reviewed and updated primarily using Engineering as-builts and then error-corrected using orthographic photos (aerials). This information is available to City employees at any time, and can be made available to the public or other organizations upon request. See <b>attachment 3A</b></i></p>
Related MCMs 3	BMP 304 Training Program for Illicit Discharge Detection	Prepare a list of techniques and appropriate activities for illicit discharge detection and elimination. Prepare and increase training budget in anticipation of future training needs		Apr. 2011	<p style="text-align: center;"><i>Completed/July 2012</i></p>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 3	BMP 304 Training Program for Illicit Discharge Detection	Prepare City developed training program or select training program from other sources		Oct. 2011	<i>Completed/February 2012</i>
Related MCMs 3	BMP 304 Training Program for Illicit Discharge Detection	Initiate training for city inspectors		Jan. 2012	<i>Completed/July 2012</i> <i>Training for IDDEP was conducted by the City on March 29, 2013. Refer to <b>attachment 6C</b> for employee training inventory.</i>
Related MCMs 3	BMP 305 Sanitary Sewer Inspection Program	Inspect wastewater lines within the City in accordance with the current plan		Completed	<i>Completed &amp; will remain continual</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 3	BMP 305 Sanitary Sewer Inspection Program	Evaluate the current program to determine if additional measures are appropriate		Nov. 2010	<p style="text-align: center;"><i>Completed/Nov. 2010</i></p> <p style="text-align: center;"><i>See attachment 3C</i></p> <p><i>No additional measures have been determined as appropriate for this MCM.</i></p>
Related MCMs 3	BMP 305 Sanitary Sewer Inspection Program	If additional measures are necessary, the City will perform the following additional steps:		As needed	<p style="text-align: center;"><i>Completed /Nov. 2010</i></p>
Related MCMs 3	BMP 305 Sanitary Sewer Inspection Program	Draft additional measures to be taken for consideration by City staff responsible for wastewater		As needed	<p><i>Will continue to review for need of additional measures and a draft would be developed accordingly</i></p>
Related MCMs 3	BMP 305 Sanitary Sewer Inspection Program	Finalize a comprehensive plan for wastewater line inspection that incorporates existing and proposed		As needed	<p><i>Will continue to review for need of additional measures and a comprehensive plan</i></p>
Related MCMs 3	BMP 305 Sanitary Sewer Inspection Program	Implement new measures, as necessary		As needed	<p><i>Will continue to review for need of additional measures and implementation will occur accordingly</i></p>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 4,5	BMP 401 Construction Site Storm Water Management Guidance Document	Review existing erosion and sediment control BMPs and waste disposal procedures for construction site		Mar. 2011	<i>Completed /March 2011</i>
Related MCMs 4,5	BMP 401 Construction Site Storm Water Management Guidance	Propose draft guidance documents		Jun. 2011	<i>Completed/July 2012</i>
Related MCMs 4,5	BMP 401 Construction Site Storm Water Management Guidance Document	Finalize and adopt a construction site stormwater management guidance document		Sept. 2011	<p><i>Completed/August 2012</i></p> <p><i>The City's Engineering Design Guidelines are updated based on technological changes as applicable. The Guidelines are located at: (<a href="http://www.pflugervilletx.gov/index.aspx?nid=826">http://www.pflugervilletx.gov/index.aspx?nid=826</a>.)</i></p> <p><i>A pre-construction SWP3/BMP guidance sheet is also given to all contractors prior to project implementation. (Attachment 4A) All projects conducted within City limits are required to have an onsite pre-inspection of Erosion/Sediment controls prior to start.</i></p>
Related MCMs 4,5	BMP 401 Construction Site Storm Water Management Guidance Document	Revise development procedures and ordinances as necessary to incorporate new guidance		As Needed	<i>Completed/August 2012</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 4,5	BMP 402 Construction Site Plan Review for Stormwater Management	Review existing construction site plan process		Mar. 2011	<i>Completed/ March 2011</i>
Related MCMs 4,5	BMP 402 Construction Site Plan Review for Stormwater Management	Revise the site plan, review procedure to include water quality considerations, and review storm water pollution control ordinance		Sept. 2011	<i>Complete /July 2012</i>  <i>City staff continues to use the definitions and requirements of the Engineering Design Guidelines to determine which sites have a high potential for sediment transport. City personnel inspects all sites with submitted plans for erosion/sediment BMPs prior to clearing and grading activities, regardless of applicable stormwater regulations.</i>
Related MCMs 4,5	BMP 402 Construction Site Plan Review for Stormwater Management	Amend site plan review process to conform with stormwater pollution control ordinance		Nov. 2011	<i>Complete/August 2012</i>  <i>The City's Engineering staff reviews and approves erosion and sediment control plans based on the appropriateness of each BMP within the submitted site plans.</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 4,5	BMP 402 Construction Site Plan Review for Stormwater Management	Review ongoing programs, ordinance, and codes relative to construction site stormwater pollution prevention requirements		As Needed	<i>Completed/June 2012</i> <i>The City continues to review projects with the potential to impact stormwater &amp; water quality hazards.</i>
Related MCMs 1,2	BMP 403 Construction Site Stormwater Controls Training for City Inspectors	Determine training requirements, establish recordkeeping procedures, and define enforcement action		Apr. 2011	<i>Complete /Feb. 2012</i> <i>The City has continued tracking employee training and enforcement actions.</i>
Related MCMs 1,2	BMP 403 Construction Site Stormwater Controls Training for City Inspectors	Prepare a training program or elect from other sources		Feb. 2011	<i>Complete /May 2012</i> <i>Training materials obtained from NCTCOG DVD "Pollution Prevention – What we can do" &amp; slide shows remain the primary source for training employees.</i>
Related MCMs 1,2	BMP 403 Construction Site Stormwater Controls Training for City Inspectors	Initiate training for City inspectors		Jan. 2010	<i>Completed/ May 2012</i> <i>Construction inspectors attend annual refresher training sessions covering construction site erosion/sediment control.</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 1,2	BMP 403 Construction Site Stormwater Controls Training for City Inspectors	Perform site inspections and document progress		Jan. 2011	<p style="text-align: center;"><i>Completed /April 2012</i></p> <p><i>Erosion control inspections are performed by City inspectors on a routine basis. Inspectors enforce permit provisions per the Stormwater Ordinance. Staff inspects construction-phase erosion controls at all known permitted development sites to verify proper installation and maintenance. See <a href="#">attachments 4B</a></i></p>
Related MCMs 5	BMP 501 Development Requirements for Post-Construction Stormwater Controls	Review existing structural and non-structural control BMPs		Mar. 2011	<p style="text-align: center;"><i>Completed /Mar. 2011</i></p> <p><i>The City is a participant in a stormwater pond retro-fitting experiment conducted by Dr. Michael Barrett with the University of Texas Center for Research in Water Resources. The primary goal of the project is to determine the effectiveness of retrofitting flood control facilities in the Gilleland Creek watershed to reduce the bacteria concentrations and to improve water quality in stormwater discharges. See <a href="#">attachment 5A</a></i></p>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 5	BMP 501 Development Requirements for Post-Construction Stormwater Controls	Revise existing procedures as necessary to include appropriate structural and non-structural BMPs		May 2011	<p style="text-align: center;"><i>Completed/ May 2011</i></p> <p><i>Procedures are implemented when post-construction BMPs are identified that need City maintenance. The overall vision of the program continues to verify adequate long-term operation and maintenance of post-construction stormwater facilities and BMPs that are permitted pursuant to the City's permit process.</i></p>
Related MCMs 5	BMP 501 Development Requirements for Post-Construction Stormwater Controls	Review ongoing programs, ordinances, and codes relative to post-construction controls and revise, if needed		As needed, Oct. 2011	<p style="text-align: center;"><i>Completed/ July 2012</i></p> <p><i>Each plan review includes consideration of pre and post project drainage aspects, and erosion control initiatives to verify compliance with Pflugerville's Storm Water ordinance.</i></p>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 5	BMP 502 Structural Stormwater Controls Inspection Training	Determine training requirements, establish inspection schedule, establish recordkeeping procedures, and define enforcement actions		May 2011	<i>Completed /June 2011</i>
Related MCMs 5	BMP 502 Structural Stormwater Controls Inspection Training	Prepare training program or select from other sources		June. 2011	<i>Completed /June 2011</i>
Related MCMs 5	BMP 502 Structural Stormwater Controls Inspection Training	Initiate training for city inspectors		June 2011	<i>Completed /June 2011</i> <i>(Attachment 6C) City engineering and review staff continue attending training sessions as available to further enhance the knowledge of technical standards, LID techniques, regulatory requirements, and other stormwater-related topics.</i>
Related MCMs 5	BMP 502 Structural Stormwater Controls Inspection Training	Perform site inspections and document progress		As required	<i>Completed /June 2012</i> <i>City staff continues to inspect all permitted development sites upon completion of construction and prior to final approval or occupancy. This ensures proper installation of permanent stormwater controls such as stormwater facilities and structural BMPs. A mandatory maintenance plan is required and specified responsibility for maintenance is clearly assigned. See attachment 5B</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs  6	BMP 601 Operation and Maintenance Program for Stormwater Controls from Municipal Operations	Evaluate needs for pollution prevention and good housekeeping measures		Oct. 2011	<i>Completed /April 2012</i>
Related MCMs  6	BMP 601 Operation and Maintenance Program for Stormwater Controls from Municipal Operations	Prepare draft program for the City		Nov. 2011	<i>Completed /June 2012</i>
Related MCMs  6	BMP 601 Operation and Maintenance Program for Stormwater Controls from Municipal Operations	Finalize and adopt a comprehensive good housekeeping program for City operations and facilities		Jan. 2012	<i>Completed /July 2012</i>  <i>The City continues to implement an operations and maintenance program that includes a training component &amp; standard operating procedures, all of which serve the purpose of preventing or reducing pollutant runoff. See <a href="#">attachments 6A &amp;6E</a></i>
Related MCMs  6	BMP 602 Stormwater Management Training for Employees at Municipal Operations	Identify and develop training requirements for the comprehensive good housekeeping program developed for BMP 601		Feb. 2012	<i>Completed/ March 2012</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 6	BMP 602 Stormwater Management Training for Employees at Municipal Operations	Prepare a training program or select training materials from other sources		Mar. 2012	<i>Completed/March 2012</i>
Related MCMs 6	BMP 602 Stormwater Management Training for Employees at Municipal Operations	Initiate training for City employees		Apr. 2012	<i>Completed/June 2012 (Ongoing)</i> <i>Operations and maintenance training for employees whose job functions may impact stormwater quality is ongoing. Additional training is provided as needed to address changes in procedures, techniques, or requirements. See <b>attachment 6C</b></i>
Related MCMs 6	BMP 603 Structural Stormwater Controls for City Operations	Evaluate the need for structural BMPs for City facilities		Jul. 2011	<i>Completed/June 2012</i>

MCM(s)	BMP	Milestones of Permit Year	New or Revised	Start Date	Status / Completion Date (completed, in progress, not started)
Related MCMs 6	BMP 603 Structural Stormwater Controls for City Operations	If structural BMPs are determined to be needed, the City will perform the following additional tasks:		As Needed	NA
Related MCMs 6	BMP 603 Structural Stormwater Controls for City Operations	Prepare a draft of procedures and requirements for structural BMPs for City facilities		Aug. 2011	Completed/June 2012
Related MCMs 6	BMP 603 Structural Stormwater Controls for City Operations	Finalize and adopt procedures and requirements for structural BMPs for city facilities		Sept. 2011	Completed/July 2012
Related MCMs 6	BMP 603 Structural Stormwater Controls for City Operations	Review ongoing programs relative to post-construction maintenance of structural BMPs for City facilities		As Needed	Completed/July 2012 (Ongoing) <i>The City monitors post-construction maintenance of infrastructure every 6 months for duration of 2 years. Post-construction structural controls are addressed on a case-by-case basis as applicable.</i>
Related MCMs 6	BMP 604 Waste Disposal from MS4 Operations	Review existing procedures relative to waste disposal from MS4		Apr. 2011	Completed/March 2012

<b>MCM(s)</b>	<b>BMP</b>	<b>Milestones of Permit Year</b>	<b>New or Revised</b>	<b>Start Date</b>	<b>Status / Completion Date (completed, in progress, not started)</b>
Related MCMs 6	BMP 604 Waste Disposal from MS4 Operations	Develop the procedures to meet General Permit requirements for proper waste disposal		Jun. 2011	<i>Completed/June 2012</i>
Related MCMs 6	BMP 605 Municipal Operations and Industrial Activities	Review current list of operations and activities		Feb. 2011	<i>Completed/Feb. 2011 See <b>attachment 6D</b></i>
Related MCMs 6	BMP 605 Municipal Operations and Industrial Activities	Revise the list as requirements of the general permit		Dec. 2011	<i>Completed/June 2012  No revisions to the current list of operations were made.</i>

Table 2 – Measurable Goals Status

MCM(s)	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
1	The creation of an organizational structure within the City of Pflugerville that can effectively implement the SWMP and the General Permit	<i>Met goal</i>	None
3,4,5	The adoption & enforcement of a stormwater pollution control ordinance	<i>Met goal</i>	None
7	Determination of whether to adopt the seventh MCM for the Stormwater Management Program	<i>Met goal</i>	None
7	If the decision is to adopt the seventh MCM, development and adoption of appropriate BMPs for the seventh MCM	<i>Met goal</i>  <i>The City decided to forego the option to adopt the seventh MCM.</i>	None
1,2,3,4,5	The successful development and adoption of an interlocal agreement with Travis County for management of stormwater in areas of the City's extraterritorial jurisdiction that are currently under the County's jurisdiction.	<i>Met goal</i>	None
1,2,3,4,5	Evaluation of whether other interlocal agreements are needed to effectively management stormwater	<i>Met goal</i>	None
1,2,3,4,5	The development of appropriate interlocal agreements with other entities, if such entities are determined to be necessary	<i>Met goal</i>	None

MCM(s)	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
1 & 2	The Creation of a comprehensive public education program to educate Citizens on City's MS4 permit and stormwater activities	<i>Met goal</i>	None
1 & 2	Continue to promote waste conservation programs to reduce the pollution in stormwater runoff.	<i>Met goal</i>	None
1 & 2	Development of an Implementation Plan for the Gilleland Creek Bacteria Total Maximum Daily Load project that reflects the best interests of the City of Pflugerville in regard to the reduction of bacteria loading to the portion of Gilleland Creek that flows through the City and is consistent with the goals and objectives of the Stormwater Management Program.	<i>Met goal</i>	None
1 & 2	The publication of notice as per the General Permit Requirements	<i>Met goal</i>	None
1 & 2	If the TCEQ determines that a public meeting is appropriate, the measurable goal is to sponsor a public meeting in accordance with TCEQ requirements.	<i>Met goal</i>  <i>No determination made by TCEQ during permit period.</i>	None
1 & 2	Evaluation of potential for development of a program to sponsor public participation events	<i>Met goal</i>	None
1 & 2	If it is determined that such a program is desirable, the goal will be development of an effective program to promote public stormwater management events	<i>Met goal</i>	None

MCM(s)	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
3	The development and enforcement of program to effectively detect and eliminate connections to the City's storm sewer system and illegal disposal of wastes to the storm drain system to minimize stormwater pollution	<i>Met goal</i>	None
3	Successful evaluation and revision of allowable non-stormwater discharges listed in the General Permit	<i>Met goal</i>	None
3	The development of storm sewer map with information on City owned storm sewer pipes, ditches, outfalls and waters of the United States to meet the requirements of the General Permit	<i>Met goal</i>	None
3	The successful implementation of illicit discharge detection and elimination program to conform with stormwater pollution control requirements	<i>Met goal</i>	None
3	The ongoing inspection of wastewater lines in accordance with the existing program. In addition, measurable goals will include additional wastewater line inspection measures, if it determined that additional measures are needed to meet the requirements of this control measure	<i>Met goal</i>	None
4, 5	The development of stormwater management guidance document to assist construction personnel with appropriate information on stormwater management control from construction sites	<i>Met goal</i>	None
4, 5	The adoption of revised site plan review process to include water quality aspects in the initial development phase	<i>Met goal</i>	None
4	The implementation of appropriate measures to effectively reduce stormwater runoff	<i>Met goal</i>	None

<b>MCM(s)</b>	<b>Measurable Goal(s)</b>	<b>Success</b>	<b>Proposed Changes (submit NOC as needed)</b>
5	The adoption of development procedures to effectively control stormwater after construction	<i>Met goal</i>	None
5	The development and implementation of appropriate control measures for stormwater control	<i>Met goal</i>	None
6	The development and implementation of operation and maintenance program for City Operations to meet requirements of the General Permit	<i>Met goal</i>	None

Re: Phase II MS4 Annual Report Transmittal for City of Pflugerville  
TPDES Permit Number: TXR040078

Dear Team Leader:

This letter serves to transmit the Year 5 Annual Report for the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number TXR0400078 for the City of Pflugerville.

A separate Notice of Change has not been submitted based on the fact that changes have not been proposed for the next permit year.

As required by the general permit, a copy of this submittal has also been mailed to the TCEQ's regional office in Austin, Texas.

Sincerely,

Dan Franz, P.E.  
City Engineer
